8 Clever solutions for truly easy ironing

With unique ShoulderWing System

The ironing board plays an important role in the ironing experience. The new Philips ironing board has thought about every detail to make your ironing truly easy. The unique board includes 8 clever solutions that solve all ironing hassles.

Fast ironing

- Easy shirt ironing: unique ShoulderWing System
- Smoother gliding with multi-layered board cover
- Iron more in one go: XL board shape

Convenient ironing

- Keep the cord out of the way: special cord holder
- Hang garments after ironing: convenient hanging rail

Safe ironing

- Perfect combination with steam generators: XL iron tray
- Designed for safety: child and transport lock
- Extra stability: Double leg construction with anti-slip feet

Highlights

Unique ShoulderWing System

With the unique ShoulderWing system, shirt ironing is easier than ever. This innovative system helps you iron shirts with little rearranging, saving you time and effort. The retractable ShoulderWing System can be opened and closed, depending on the type of garment to be ironed.

Multi-layered board cover

The board cover is made of 100% cotton and is supported by foam and felt layers. This combination provides a comfortable and smooth ironing surface.

XL board shape

Iron more in one go with Philips XL board shape (120 x 45cm). It is also ideal for ironing big items such as bed lines and table cloths.

Special cord holder

Use the cord holder to keep the cord or the steam hose out of the way. The cord holder pole elevates the cord so that it does not touch the garment while ironing, eliminating new creases on the already ironed parts.

Convenient hanging rail

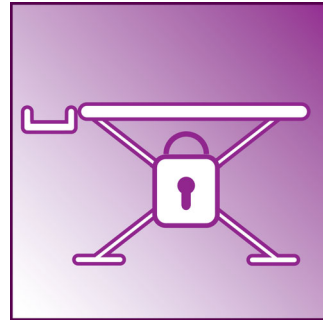

No need to look for a place around you to hang your freshly ironed shirts. You can hang garments directly after ironing on the convenient hanging rail.

XL iron tray

The stable and extra-large iron tray is perfect for steam generators. It is also heat resistant and can be safely used with steam irons.

Child and transport lock

Child and transport lock prevents accidental collapsing of the board while ironing and also keeps the board closed during storage.

Double leg construction

The ironing board is supported by double leg construction with anti-slip feet caps that provides extra stability.

Philips Green Logo

Philips Green Products can reduce costs, energy consumption and CO2 emissions. How? They offer a significant environmental improvement in one or more of the Philips Green Focal Areas – Energy efficiency, Packaging, Hazardous substances, Weight, Recycling and disposal and Lifetime reliability.

Specifications

Fast and convenient ironing
